

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## INTRODUCTION.

---

CONTINUAL applications for Drawings of my Highland Cottages have induced me to present them to the public in a printed form. In doing so, I am aware that I expose them to severe criticism ; and, as the buildings were designed and erected as an amusement, *without the aid of any professional man*, I shall not be surprised if they are found to exhibit many defects. In publishing these Views, I have omitted to furnish the working plans for mechanics, supposing that few persons would be inclined to erect cottages in exact imitation of mine. My aim is solely, to assist in creating a taste for Rural Architecture ; and I merely offer my feeble efforts in that way as subjects to be improved upon. Abounding, as our country does, in all directions, with an endless variety of beautiful sites for residences, it must be a source of regret to every lover of the picturesque, that the advantages lavished upon us so unsparingly by Nature, have been in times past almost totally neglected. Happily, however, a change is now taking place, each year bringing with it evidences of an increased taste for country life, and a better appreciation of natural scenery.

Richly ornamented chimney shafts are highly important in giving character to Elizabethan cottages ; but I have not introduced them,

because in our country I have been unable to find a mechanic who can execute them properly.

Experience satisfies me that there is much advantage in giving names to suburban residences, and I earnestly recommend the custom for general adoption. Where houses cannot be numbered, as they are in the streets of a city, the name of the place at the entrance gate is an essential guide to strangers, particularly in a community like ours, where persons are continually changing their residences.

WM. BAILEY LANG.

BUTE COTTAGE, SEPT. 1845.

### YOULE COTTAGE.

YOULE COTTAGE was erected in 1837, and is believed to have been the first attempt at Elizabethan ornamented cottage architecture in this part of the country. The novelty of its style met with much opposition from the mechanics employed, and, in occasionally yielding to their opinions, the character of the building was in some measure injured ; but it is here presented with all existing imperfections. This view is taken from the north-west side. It is not seen from the public road.

The name of YOULE was given in remembrance of a near relative, residing on the borders of Cayuga Lake.

YOULE COTTAGE.—GROUND PLAN.

THIS Cottage comprehends a porch, a spacious entrance hall, a drawing room, a dining room, a china closet, two store rooms, eight sleeping rooms, a bath room, a dressing room, a large kitchen, a wash room, and a large cellar. It is warmed by furnaces. In the rear of the cottage, and attached to it, is a small green-house.

GROUND PLAN OF YOLLER.

### BUTE COTTAGE.

THIS Cottage was erected during the last year. It contains much more accommodation than its outward appearance indicates, as may be seen on reference to the Ground Plan. The barge-boards and pendants are painted in imitation of oak—the only proper color for such ornaments. There are woods in the rear, which screen many parts of the dwelling from public observation, and form an agreeable background to the picture.

This place is named after a beautiful cottage near Regent's Park, London — once the residence of some valued friends.

COTTAGE - NOXSTREY, HIGHLANDS.

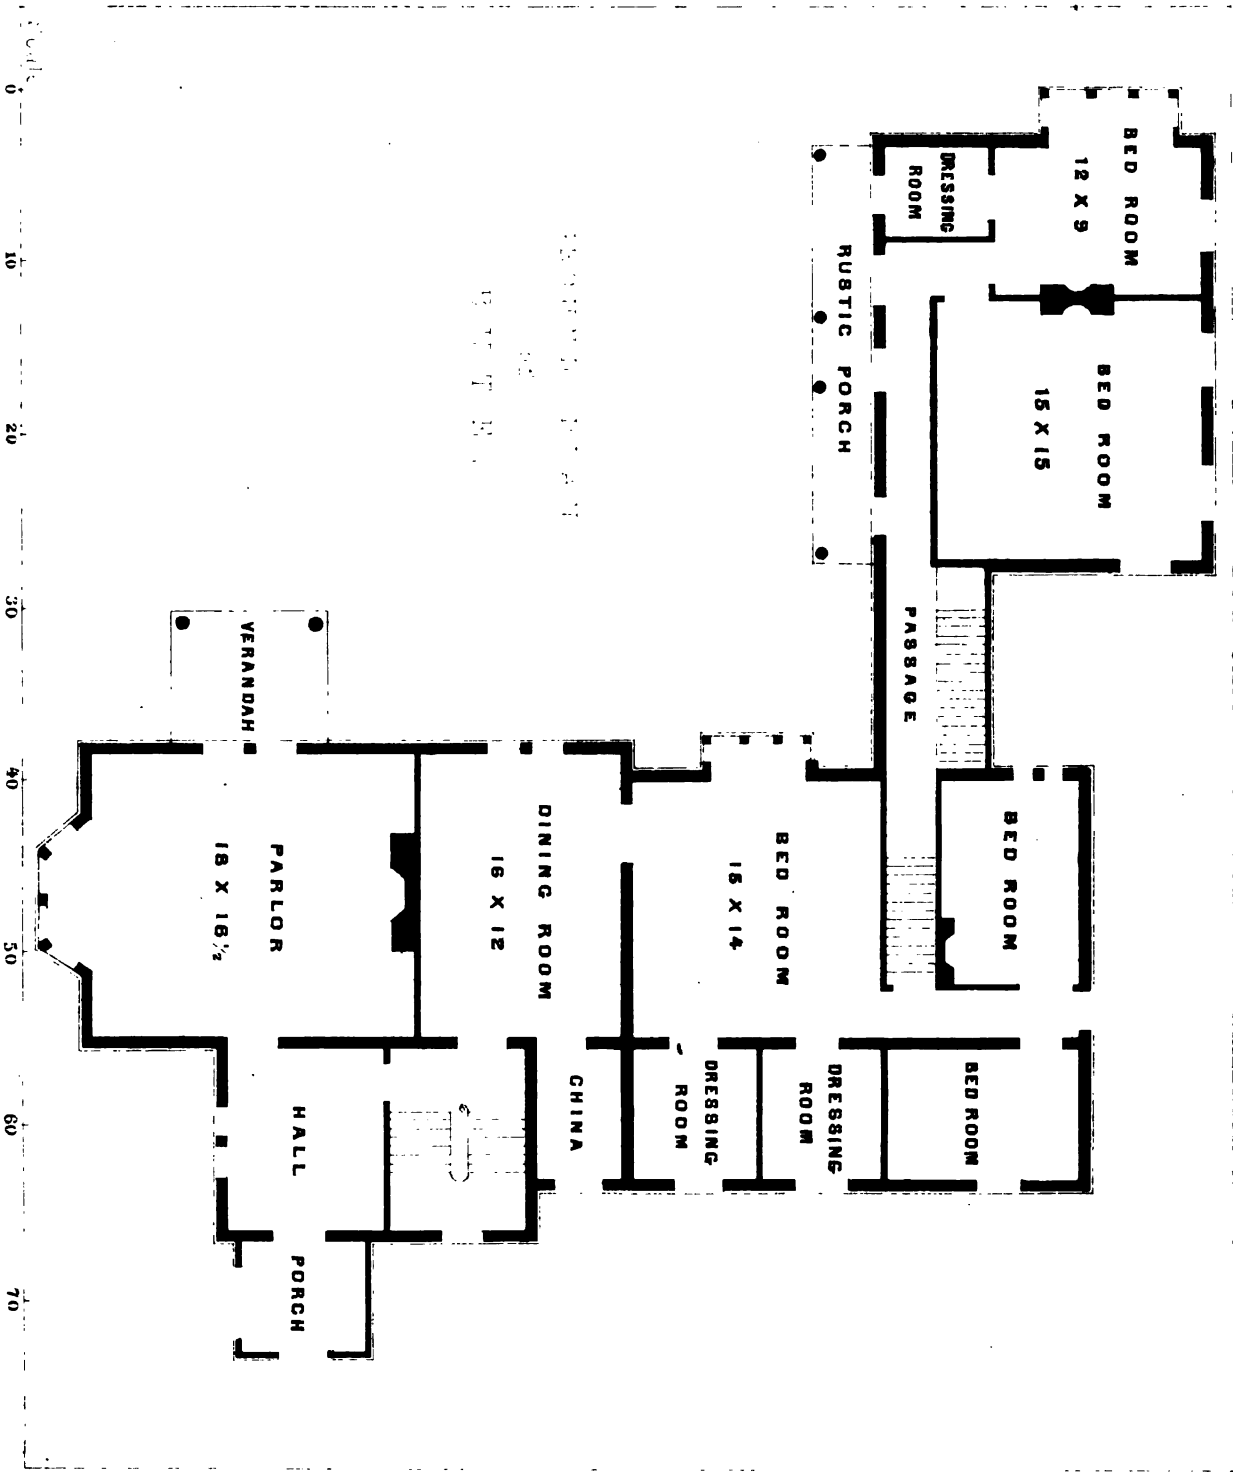

BUTE COTTAGE. — GROUND PLAN.

THIS Cottage contains a porch, small entrance hall, parlor, library, dining room, china closet, two store rooms, ten bed rooms (seven of which have upright walls), two dressing rooms, a kitchen, larder, two cellars, and a pump room. It is warmed throughout by a furnace.

### GLENN COTTAGE.

THIS little Cottage, although the least expensive of the three residences herein delineated, has been decidedly a favorite. Climbing roses and ivy have been trained with much good taste, by the present occupant, around the windows and the rustic lean-to — adding greatly to the beauty of the place.

The family name of GLENN was selected without reference to the locality of the building.

GLENN COTTAGE - ROXBURY HIGHLANDS

**GLENN COTTAGE. — GROUND PLAN.**

**THIS Cottage comprehends a parlor, a library, a dining room, four sleeping rooms, a kitchen, and a cellar with coal bins.' It is warmed by a furnace.**

GROUND PLAN OF GLENN COTT.

## OBSERVATORY AT BUTE.

FEW persons are aware of the advantages to be gained in prospect by a slight elevation upon their grounds. This Observatory, situated in the woods of BUTE, is only thirty feet high, yet from its top may be seen Boston, Cambridge, Charlestown, Chelsea, Dorchester, the Ocean, and the Hotel at Nahant.

OBSERVATORY AT QUILA

## OUT-BUILDINGS.

THE PUMP HOUSE measures ten feet by nine. The corner posts are seven feet high.

THE CHILDREN'S COTTAGE, or Play Room, measures twelve feet by nine. The studs are six feet. The roof, covered with hemlock bark, is supported at the corners by rough cedar posts, around which climbing roses and honeysuckles are prettily entwined.

THE CARPENTER'S SHOP.—This is an indispensable place to all persons residing in the country. It measures twenty feet by nine. The studs are seven feet.

THE RUSTIC BOWER.—Shingle roof, painted black. The corner posts are of rough cedar, to which that hardy plant, the Virginia creeper, has been trained.
